

# Volunteer for Fawn Search!

- May 21– June 8, 2012
- Enjoy a *long* walk in the woods searching for fawns
- Assist with capturing, weighing, sexing, radiocollaring, and eartagging fawns as part of a research project evaluating factors influencing fawn survival across Wisconsin

For more information please contact a deer research team member at 920-373-3565 (east central study site) or 608-219-0771 (northern study site).

To learn about the research project go to the Wisconsin Department of Natural Resources website:
