

A Family Business That Serves You Like Family

Combine many of America's most established, recognizable, and trusted names in marine, lawncare, and other power equipment, back it with a local business committed to customer service for more than 65 years, and you have something special serving southeast Wisconsin...

You have **Dave's Turf & Marine** in Watertown.

There is a certain buyer's comfort in a name. Old friends like *John Deere*, *Princecraft*, *Evinrude*, *Johnson*, *Mercury*, *Dixie Chopper*, *Jonsered*, *Ariens*, *Kohler*, *Briggs & Stratton*, *Tecumseh* mean decades of experience, sound engineering, quality products, and people who stand behind it all.

Dave's Turf & Marine has earned that same kind of respect in southeast Wisconsin by standing behind what they sell. Before you buy, say hello to Dave and Leni Kahler of Watertown, meet their staff, and see exactly what they have to offer.

"Our high customer satisfaction comes from both the equipment we sell and our commitment to service," Dave Kahler said. "It's absolutely a given that people we've dealt with before trust us, and we trust them. We're a family business. Our customers know if they do have a problem that it's going to be taken care of."

Dave's Turf & Marine. Quality boats and lawn products. No-excuses family service.
